Santa Fe, N. M., August 12.—A lensation was created here day before yesterday by the announcement of a rich mining strike in the Mexicon village of Losplacitas, about thirty miles distant. The village is built of adobe huts and corrals, and the foundations of the bouses are of rocks. Prospector Jesse E. Martin detected the mineral in this rock. He pounded up and hammered some of it getting a rich result in gold. He located the streets of the fown whence gold rock was taken and had assays made, with results of \$4.600 of gold to the ton, the lowest grade of rock assayed being \$43 Governor Lew Wallace has just returned from the place. ON THE TRAIL.

DENVER, Col., August 13.—A special from Santa Fee says: Information from Elpaso is to the effect that seventy-five or one handred Indians, either from Victoria's own band or those from Mexico who had aided Victoria, and who have been hovering for the past few days betweenfold Fort Quitman and Eagle Springs, crossed the Rio Grande near Quitman early this morning, headed south into the state of Chihauhau, Col. Buell commanding the Mexican troops in the field against these Indians, has been notified by a courier, and will endeavor to cut them off. A column of Indians numbering about one hundred, consisting of the main portion of Victoria's force, passed Rio Grande later in the day. They evidently found Colonel Grierson's command, after the fight in Rattlesnake canon, in possession of the watering places, and passed north, and had to retire.

General Hatch thinks the Indians will try to get through the lines into the Miembores or Magallon mountains. To prevent this he has disposed troops under Colonel Buell's command, along the road from Fort Cummins to the river. Colonel Buell's headquarter ares now at Sloeum ranch about the center of the lines.

PINCHBACK told the brethren in the New York conference the other day that of the southern states. The remarkable the republicans had never treated the colored people fairly. Pinch was mistaken if he thought he was telling the brethren any news.

It is rather funny to see the Athen Watchman, the personal organ of that bright young independent, Emory Speer, accusing Governor Colquitt of attempting to disrupt the democratic party. Mr. Speer should take his editors in hand and give them a lesson in consistency.

UNCLE JONATHAN NORCROSS is again tinued to grow. Indeed, the census rebrought to the front by the complexion of affairs, and he announces that Governor Colquitt can be defeated by the combined vote of the republicans and the independents. It is likely that Mr. Norcross will discover that the independents are as scarce as his thirty thousand white republicans who obstinately refuse to go to the polls for fear they may be jostled by a colored man.

THE Washington Post ventures to sug gest that the Georgia democracy feels competent to settle its own difficulties. Our esteemed contemporary is right. Moreover, it is not such a serious matter after all. The opposition to the clearly making himself an instrument in the expressed will of the people will dwindle away until it is merely represented by those who are willing to break up the party in the hope that in the general scramble they may succeed in getting his recent trip, but he will hear from the

GOVERNOR COLQUITT'S letter to the committee appointed to notify him of the action of the convention is a docum well calculated to attract the attention of thoughtful citizens. Upon one point, he might have dwelt at greater length and with pardonable pride-namely, the kindly relations that exist bet veen the two races in Georgia. Governor Colquitt has satisfied the colored people that they need go no further than a democratic administration to secure justice. This, of itself, is something more than a po-

The purpose of this alleged 'ring" was said to be to capture the State road by a forced sale, and abolish the railroad commission.

In Governor Colquitt's letter of acceptance he sets at rest these two charges in the most emphatic manner. As to the railroad commission he says it has not yet had a fair trial, and should be continued an encouraged, and that he will support it through his term of office. As to the proposed sale of the State road he is even more emphatic, stating that he "should not hesitate to withhold the executive signature from any bill that provides for the sale of the road, or puts beyond the power of the state to keep it open alike to the use of all corporations and citizens upon terms of perfect equality." This is the plain statemen that if any such bill should be smuggled through the legislature he would veto it.

The people will find all such charges dissipated when the governor speaks upon them. Instead of being the candidate of railroads, if the railroads take any part at all in the fight, they will be found opposing Governor Colquitt rather

A majority of the convention, amounting to almost two thirds, has been forced by a combined minority to adjourn without a formal nomination of a candidate for governor, while the minority, in a manner that has no precedent in our political history, assuming the character of a convention of the people's delegates, proceed to organize party divis on and to place a candidate in the field. Reduced to its last analysis, the result is an undisgue sed attempt on the part of the minority of the convention to overrule the will of the people as expressed by the majority. General Colquit who, after a bitter and relentless canvass, stood in the convention with a plurality of nearly four to one over the convention with a plurality of nearly four to one over the combined opposition, is called upon to retire from the contest in humilitation and disgrace, while his opponents cast about over the state for some new candidate who they are willing to support for governor. At this late hour we cannot discuss such a preposterous demand. Suffice it at this time to say that we shall have to change our opinion of the d-mocracy of Georgia very much before we can believe that they will counterance and approve such revolutionary usurpation, outrage and injustice.

A WONDERFUL GOLD MINE. Newnan Herald. Mr. Robert Orr, of this city, who has considers acts directly upon the Liver, and cures Liver Complaints, Jaundice, Biliousness, Malaria, Cosbette the the richest he ever saw. It is situated just be the richest he ever saw. It is situated just be ow Hollingsworth's ferry, on the east side of the Chattahoochee, in Heard county, on the land of T. F. and J. G. Maddox. Gold has been found there for several years past, without exciting much attention or belief as to its immense value. her day, however, a vein was struck and

ed by this sudden turn of fortune, with visions atold wealth looming up in his imagination, rued to the house shouting at the top of his e that he had found it, ordered every mule pasture and all hands to quit work forever and come to the house. They had a jolly time, killed the fatted calf and called in their neighbors to rejoice with them. The vein runs northeast and southwest, and promises to prove the richest mine yet discovered in Georgia. The owners, Messrs. Maddox, are good and industrious citizens, successful farmers, have this year A No. 1 crops, and are worthy of their good fortune. We wish they may live long to enjoy tt.

UPLAND RICE.
Albany News. Colonel Nelson Tift has on his plantation, about two miles from this city, on the Ball's mill road twelve acres in rice, which averages three feet high and promises an abundant yield. The rice is planted on ordinary upland pine land, and has ood the drouth splendidly, looking now fresh stood the drouth splendidly, looking now fresh, green and vigorous. It is an old theory that rice culture requires very wet seasons, and, following this idea, the rice fields on the coast are often flooded. But the success of Colonel Titi's experiment has demonstrated the fact that the plant is a highly one, and will stand hot weather findly. This is the first year Colonel Tit has tried the experiment, and so far everything points to it as a signal success. He has induced a number of his tenants also to make the experiment, and the ants also to make the experiment, and they nave fine crops. There are several farmers in this section who have for a number of years in sucsection who have for a number of years in suc-cession planted rice crops, and they have always been successful with it. There is every reason why our planters generally should plant this crop. It has been clearly proven that it can be raised without difficulty on our uplands, and it is raised without dimetrity on our uplantas, and it is certainly a profitable crop. Rough rice, that is, rice in the chaff, will bring \$1.25 to \$1.50 per bushel in Savannah, which is certainly a remu negrative price. There are at present no rice mills in this section that we know of, but a general production of the grain would soon bring all the necessary implements for its use to hand. Diver sity of production is one of the best methods of farming, and we hope soon to see this healthy

seful and profitable grain widely planted in STABBED TO THE HEART. Columbus Times.

Last night the news reached the city of a most loody deed which had been committed at Clapp's ctory, about three miles north of the city. The

Mr. James M. Nasworthy was overseer of the card room and Mr. John D. Adkins is foreman of the picker room at the factory. Last night after the day's work was finished, the two met in the street of the village near the factory. In a conversation about their work they became angry and one word brought on another until Adkins, becoming desperate, drew a knife and plunged it into the breast of Nasworthy, from the effect of which he died in five minutes. Up to this writing no medical examination has been made, but it is thought that the knife entered the heart of the unfortunate man. The bloody deed was committed about eight o'clock last night, and Adkins fied as soon as he drew the bloody knife from his victim's breast. About 11 o'clock Coroner 8. O. Lloyd went out to hold an inquest. A warrant for the earrest of Adkins was sworn out before Judge Withaus and Adkins was sworn out before Judge Withaus Adkins was sworn out before Judge amination has been made, but it is thought that the knife entered the heart of the unfortunate man. The bloody deed was committed about eight o'clock last night, and Adkins fied as soon as he drew the bloody knife from his victim's breast. About 11 o'clock Coroner S. O. Lloyd went out to hold an inquest. A warrant for the arrest of Adkins was sworn out before Judge Witliams and placed in the hands of the chief of police, who will endeavor to capture the slayer. Bailiff McMichael went out to the factory last night to arrest him should he return there. Mr. Nasworthy is an olderly man, being between sixty-seven and sixty-eight years of age, and was esteemed as a clever and good citizen. He came to the factory about two years ago. Adkins is a young man about thirty years of age, and is rather of man, about five feet nine inches tall We have heard of no reward being offered for Showing an increase.

Whereas, The abandonment of the great principles that are the foundation and structure of the democratic party has often been the means used by designing men for the purpose of fositing themselves into places of official honor and trust, without regard to ment on their part, or the best futerests of the party; and, whereas such course has at all times been extremely detrimental to the welfare of the party, producing revolution, disor-anization, independentism and concusion in the party ranks;
Recolved, That we deprecate the action of the late gubernatorial convention held in this city in failing to do their duty by nominating a candidate for governor.
Resolved, That the action of that wing of the

on of the democracy, deserves a rebuke at the ands of the people. Resolved, That we approve of and indorse the ourse pursued by the minority of the conven-on, their gallant patriotism, pluck and action thibited in their fight for the maintenance of se principles of the party and their opposition to the one man power." And we hereby pledge are earnest efforts to secure a victory before the topic by the election of Hon. Thomas M. Nor-bod, the cancidate named by them for gov-nor. Resolved, That we indorse the nominations made by the convention under the rule adopted, and pledge them our support. After some discussion, participated in by Mr. Caldwell and others, the club adjourned.

Next Thursday night, in representatives' hall, the anniversary of the Young Men's library will occur. The annual oration will be delivered by seneral Henry K. Jac son, of Savannah, and there will be a fine programme of music. Yesterday afternoon, the boys contested for the three sheakers' places to get a chance at the library medal for declamation. There was quite a number of entries, and after a fair trial the judges awarded the three places to A. M. Green, J. Mihalovitch and J. M. Sloton. Marietta, Ga., August 13, 1880.—I see it stated in The Dally Constitution that I am a graduate of the bogus university of Philadelphia. I am a graduate of the medical department of the university of Georgia, and my diploma is as leval as that institution can make it. See the record of Augusta, Ga. I also took the degree of M.D. in the old Ecicetic medical college of Philadelphia, before Buchanan had anything to do with it. It was in 1889, at the regular commencement, the 3d of February. The Ecicetic medical institute of Chicinn II. Ohio, conferred the degree of M.D. on me in 1857, at their regular commencement on the 30th of January. The Philadelphia university (not Buchanan's school) conferred the degree of M.D. on the 30th of January. The Philadelphia university (not Buchanan's school) conferred the degree of M.D. on the 30th of January. The Philadelphia university (not Buchanan's school) conferred the degree of M.D. on the 30th of January others) wrote for it, believing him to be an honorable and upright man; annihe university that conferred the degree of M.D. on me, as above stated, is the old Penn school, bunder a new charter. The university to which Buchanan belongs conferred an nonorary degree of me, and sent it to me, and also offered me a diploma of their society, and elected me president of the society, and I immediately declined its acceptance, for I now ('ith some others) began to suspect that Buchanan was acting in a way that was dishonorable to the celectic physicians belong. Buchanan sent me books, medicines and pamphlets as ordered at several different times, until I suspected that he was acting nuprofessionally. I then ceased to hold correspondence with him. The most important characters who figured in Bible his tory were farmers. David kept sheep and Elisha, the prophet, plowed twelve yoke of oxen; Moses tended sheep; Lot had flocks and herds; Abraham was rich in cattle. Outside of the Bible, we know that Cincinnatus, the conqueror of the Volsci, left his plow to lead the Roman armies to battle; and the plantations of Washington were models of system and good management. Farming has not only pleased the eye by its beauty and charmed the fancy by the images with which its scenes and ccupations are encirc ed, but it ministers happiness of mankind.
